Dear Matthew Sizemore,

Thank you for your interest in technology opportunities with the Department of the Treasury.

Treasury is sending this message broadly to applicants for administrative consistency. This message is not a notice that you have been found qualified, referred, selected, or advanced to a later stage of the hiring process. Typically, applications selected for additional hiring manager review are reviewed and advanced within approximately one week, though timing may vary.

Please complete and submit the assessment within one week of the earlier of: the date you originally received the assessment or the date of this email. If you have already completed and submitted the assessment, no further action is required and you may disregard this message.

Please review the attached instructions carefully. Part of the evaluation is whether the assessment can be completed based on the written instructions provided. However, questions may be submitted to take-home-test@treasury.gov

Completed take-home assessments should be submitted to:

<https://forms.osi.office365.us/r/xWrQGduMw7>

Deliverables:

1. Source Code Repository, such as GitHub or similar
 - All source code
 - README with setup and run instructions
 - Brief documentation of approach, tools used, and assumptions made
2. Deployed Application URL
 - Working prototype Treasury can access and test

Completion of the take-home assessment does not guarantee qualification, referral, interview, selection, or a tentative job offer. Treasury will contact candidates selected for additional review or next steps. Due to the volume of applications, applicants may not receive an individual status update.

Thank you again for your interest in public service with the Department of the Treasury.

PLEASE DO NOT RESPOND TO THIS EMAIL MESSAGE. IT IS AUTOMATICALLY GENERATED.
